

March 16th, 2020 Habitat Chair Report

“Meetings with SMRID have continued the past couple of months. The partnership remains strong and positive, ACA has provided summary reports to SMRID in regards to the range and riparian assessments we conducted on Raymond Reservoir, Cross Coulee, Murray Lake and Stafford Reservoir. SMRID is thankful for the 15G contribution from LFGA for CPR Lake fencing project. Plans are already being made to conduct assessments on Chin Reservoir, Sherburne, 40 Mile and Sauder Reservoirs for this upcoming season. Management strategies on SMRID lands surrounding the reservoirs are being discussed in the meantime, and I will keep LFGA updated as these role out.

Please let me know if there are any questions, please send the club my regrets for not being able to attend tonight.

Mike Uchikura”
